

Conservancy Catch-up

Building connections with nature...

Ecological Restoration

Why do we do it?

To enhance biodiversity as well as improve human well-being in degraded landscapes.

Crystal Cove Restoration Project

The old-growth forested ridge and coastal bluff runs 2km along the Learning Centre shoreline and is one of the *largest undeveloped shoreline forests left in the Gulf Islands*. Crystal Cove is the only practical shore access through this area but has been heavily degraded over the past century. To conserve this stunning landscape, we have given it the highest priority for restoration.

Crystal Cove Planting Party

Be part of a legacy - help us heal the land at Crystal Cove! We invite you to a community planting party and celebration campfire.

***Friday, December 11th, 10am - 12pm
Celebration: 12 - 1pm (hot dogs and drinks)
@ Galiano Learning Centre***
